

“

I love the Resonator! I have struggled getting to sleep BUT for the first time in decades I am able to get into a deep sleep and get to REM and stay asleep for more than 2 hours at a time. I am sleeping at least 4-6 hours sometimes more in a row which may not sound like much to most people but its HUGE for me! I also am starting to dream again and remember some of my dreams which has not happened, again, in decades. I LOVE this product and am beyond happy and grateful for you making this for us!”

Lara Jaye CUSTOM

Biofield Resonator™ and Biofield Resonator Pendant™ are available in **Antique Bronze** OR **Rose Gold** (copper). Both with BRASS interior. Each one is hand charged and blessed by Lara herself!

Third Party Testing

Although still in its infancy, the Biofield Resonator™ has been proven to be extremely powerful and effective! First it was sent to a Vastu expert in Malaysia along with several other EMF protection devices. Our device was the only one chosen out of the group. It was said that not only was ours the only one that worked, it was extremely powerful.

Next we tested the Biofield Resonator™ using computerized acupuncture meridian graphing software. Meridians were tested with and without the resonator on an individual and it appeared that the electrical output of approximately 80% of the meridians increased when the resonator was being held.

Since then, we've had dozens of wellness practitioners and clients testing the resonator with amazing results. So far **they have seen the Biofield Resonator™ “turn on” just about every acupuncture point, expand the biofield dramatically, and improve sleep quality.** Some are even saying they feel it brings them luck and prosperity.

ANNOUNCING THE NEW BIOFIELD RESONATOR™!

I am so excited to announce the NEW Biofield Resonator™ and Biofield Resonator Pendant™! The Biofield Resonator™ has been designed using Vastu principles and quantum harmonics to create divine protection, foster love, enhance immune function to 100%, and block all man made frequencies (including 5G and EMF's). These are what the number sequences (harmonics) you see on the resonator relate to.

The beautiful lotus design with three concentric circles is a sacred design which carries an incredible amount of energy and symbolism. The Lotus flower is regarded in many different cultures, as a symbol of purity, enlightenment, self-regeneration and rebirth. While the roots of the lotus grow in the mud, the flower itself blossoms and rises above the water. Mud represents the suffering and obstacles of life, and the lotus flower symbolizes our journey of overcoming these obstacles. In Zen Buddhist philosophy, a circle stands for enlightenment and perfection in unity with the primal principles. Circles are also symbols of the Judeo-Christian God and sanctity, appearing as haloes. In Chinese symbology, the circle represents the heavens. Circles are used as protective symbols, as a shield, as well as to represent the sun, moon and heavenly bodies. The second side is Lara Jaye's logo — an elegant and dynamic version of the Flower of Life.

The Biofield Resonator™ will expand your energy field dramatically when you are in the presence of electronics or other stressors. Wear in your wallet, pocket or bra, around your neck, or keep in your pillowcase. *Infinite Blessings, Lara*
