DIY house clearing

LARA  JAYE
energy is everything.

Have you ever walked into a room and something felt off?

Maybe you were previewing a home to purchase and, although, it looked perfect for you on paper, instead you got a strange feeling. You couldn't explain it nor put your finger on WHY. It was just a KNOWING that you didn't want to stay long.

Just like people and businesses — all walls, spaces, homes, and land retains living energy. Everything — matter or non-matter holds memories. We can't see memories but our bodies and especially our homes 'hold' them.

Some of the memories are happy. Homemade ice cream with Grandma. Children playing and laughing.

Others are more disruptive. Constant arguing between spouses. Negative Nelly gossiping guests.

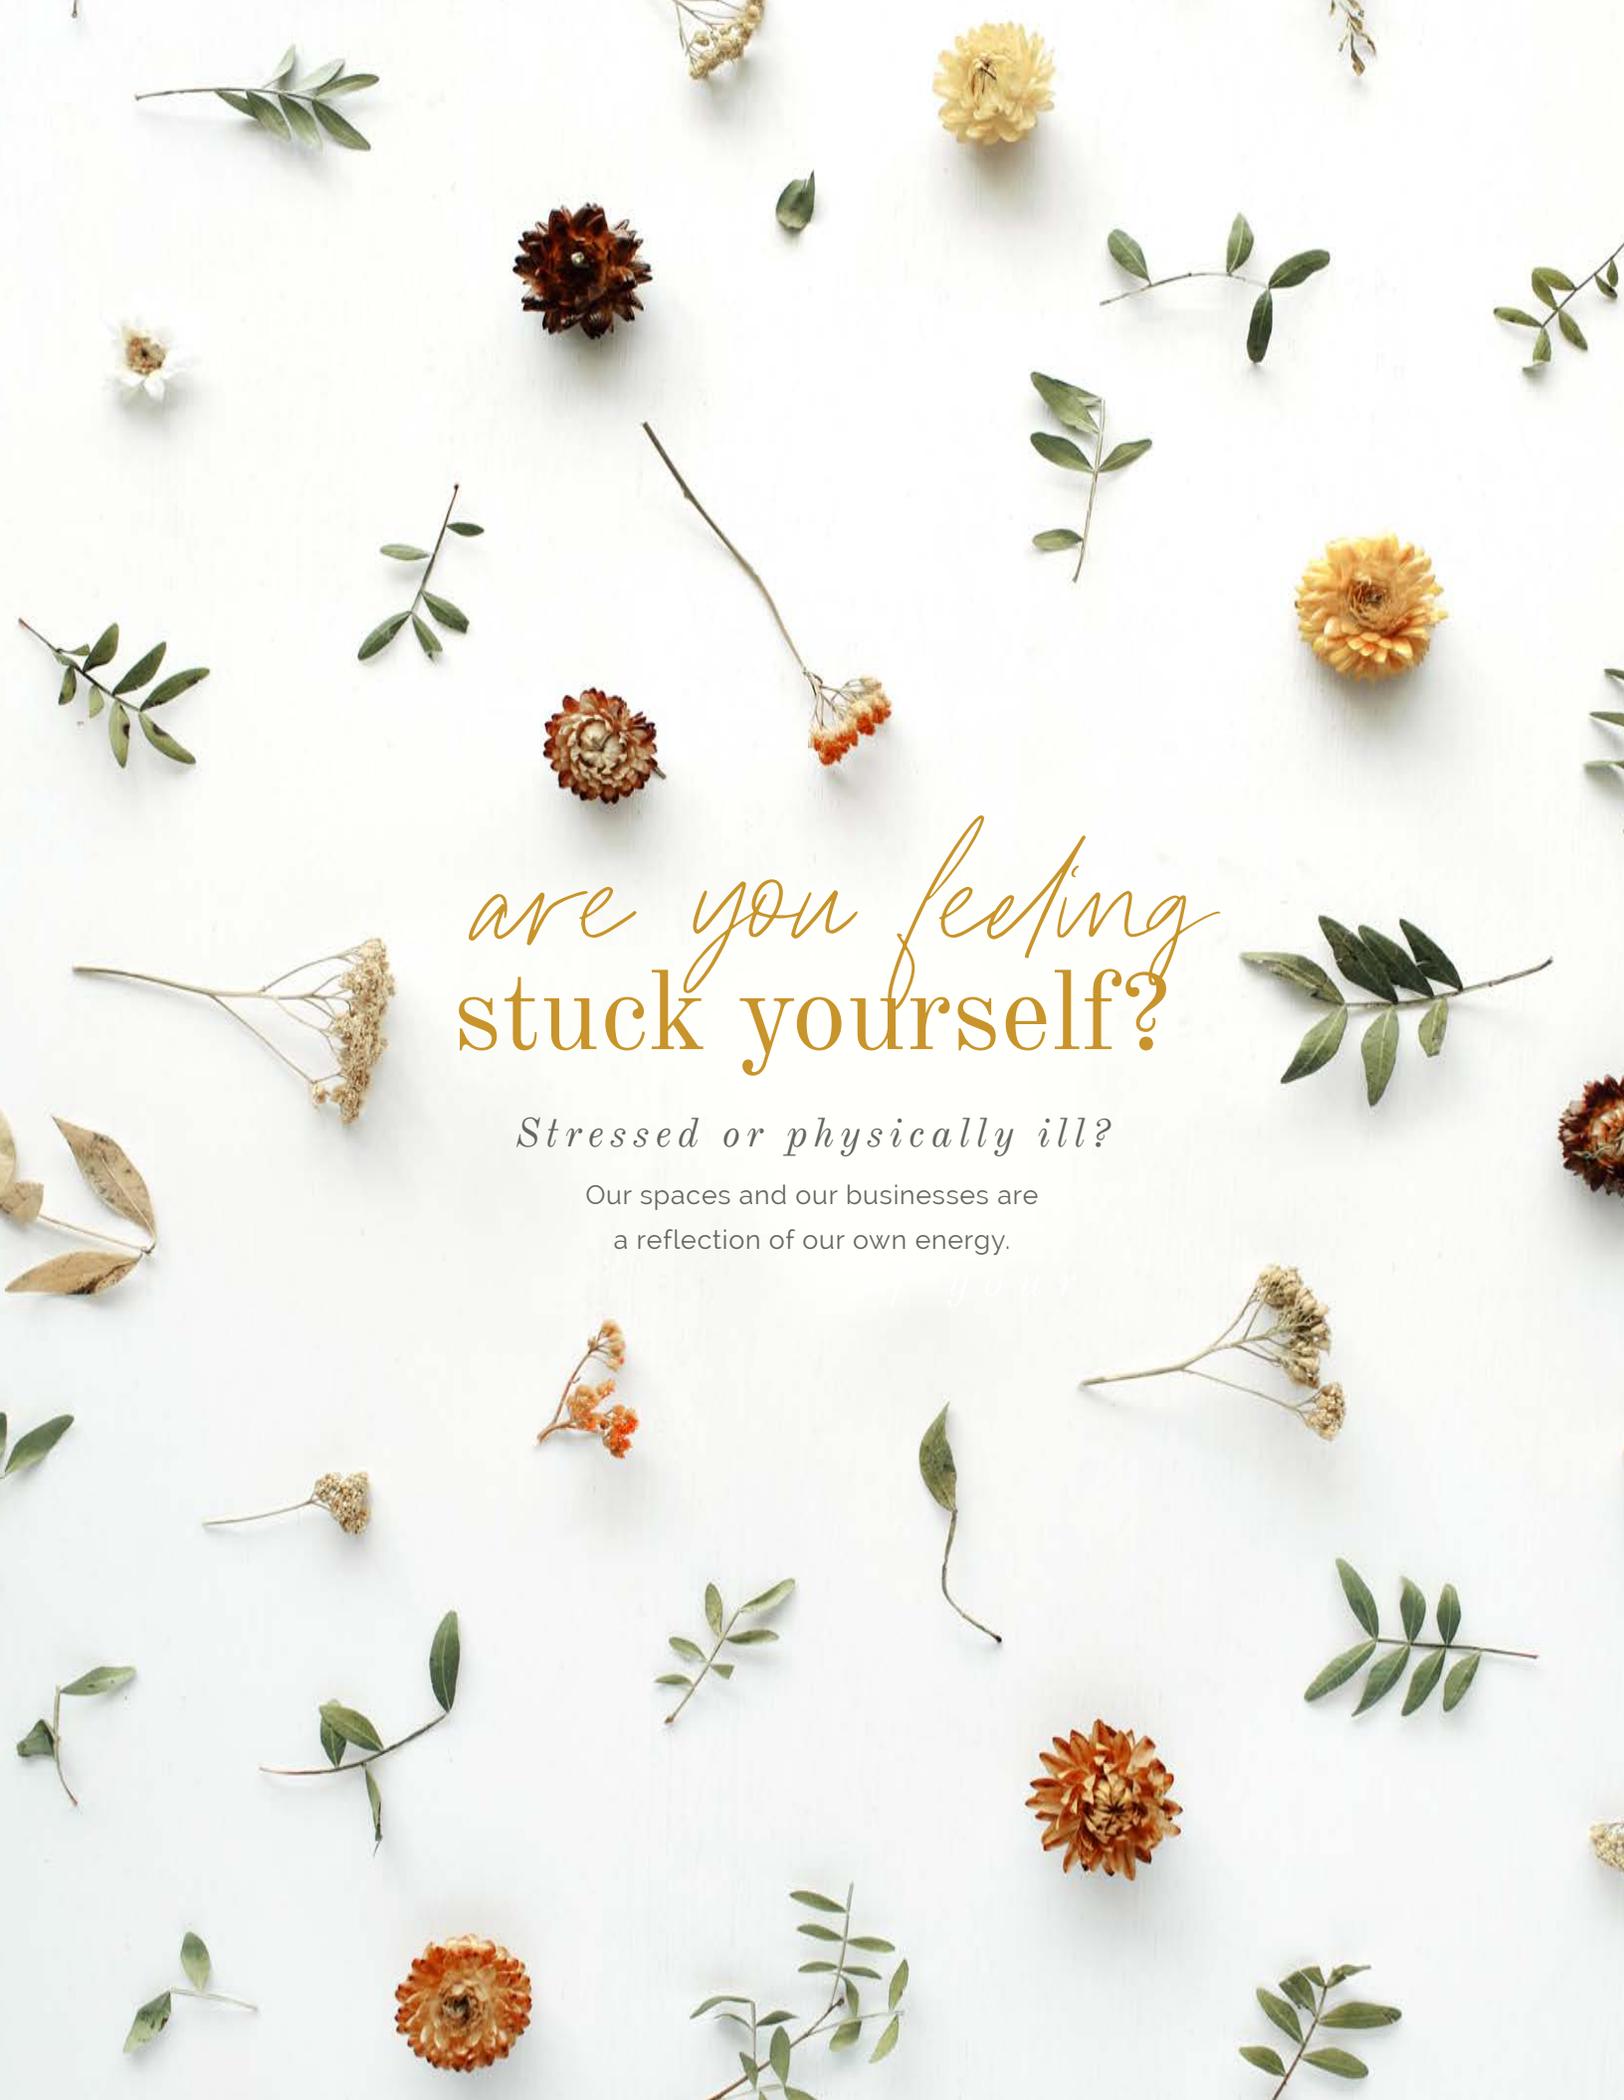

Some discordant energies aren't even yours but affect you! It could be the power plant you live near, wifi or other geo-pathic stresses. Electric discharges and other low energy radiations cause havoc on our sensitive bodies.

THOUGHTS, WORDS, AND
EMOTIONS CREATE BUBBLES OF

energy

This energy becomes embedded into our physical bodies and all physical spaces. Often staying stuck until they are cleared through prayer and focused intention.

are you feeling
stuck yourself?

Stressed or physically ill?

Our spaces and our businesses are
a reflection of our own energy.

Previous owners' issues could be lingering in the home as well. Fighting, illness, even a death in the home or on the land before the home was even built could be affecting your current health and mood.

The home or business could be sitting on sacred land or a burial ground unbeknown to you. Indian's may have settled there long ago leaving their imprint on the land. It could be a positive encouraging signature or one of death and destruction.

In order to live a life of love and vibrancy, it's imperative there is flowing positive energy in your own body, homes, land, businesses, and even your car.

As the owner of your space and your body, you have the power to convert that energy. Energy can not be destroyed. However, it can be transmuted to something lighter, more pleasing.

"The short term results were immediately feeling a sense of a weight being lifted from my shoulders. The long term results have been that numerous. Employees that needed to be gone, left by themselves. The employees that stayed raised their awareness and vibration.

Money wise,
we are up

compared to last year. Lara has created an energy of healing and raised our vibration on a personal level which has translated into an elevated business and overall environment."

If you're struggling to sell a home or feeling off balance in your new home, a space clearing would transform those negative, weak energies to allow for lighter, healing, happier and expansive energies.

A purposeful clearing eliminates these lower frequency energies that cause issues in our lives and physical body. Often removing the negative energies will result in an immediate shift and other times I've seen it take up to 30 days.

"Lara helped us tremendously by clearing some old and stuck energy in the house and refilled with Light filled energy.

TO GET STARTED ON YOUR OWN HOUSE CLEARING, I RECOMMEND:

-  Dragons Blood Incense Sticks
-  Sacred Copal Incense Sticks
-  4 Black Tourmaline Crystals
-  1 Selenite (white stone) Crystal
-  1 Amethyst (violet stone) Crystal

Dragon's Blood Incense has been prized as a grounding, and powerful protector against negativity and lower vibrations.

Sacred Copal Incense is a powerful healer and purifier, with the power to transmute negative energy. Copal aids in physical, mental, and spiritual healing, and environmental clearing.

Black Tourmaline crystal is a powerful stone for protection against negative energy of all kinds including psychic protection and EMF protection.

Selenite is an amplifier crystal and when used along with other crystals boosts their effectivity. A protective stone, it shields a person or space from outside influences. Selenite can evoke protection from the angelic realm and also dispels negative energy. Selenite calms and soothes, bringing a deep peace and sense of tranquility.

Amethyst is a stone of spiritual protection and purification, cleansing one's energy field of negative influences and attachments, and creating a resonant shield of spiritual light around the body. It acts as a barrier against lower energies, psychic attack, geopathic stress and unhealthy environments.

INSTRUCTIONS:

Open all doors and windows, if possible. To begin your clearing, say a prayer, such as the following,

“I ask God and the Angels for your Divine assistance today as I begin to clear this space. Please take away all lower, heavy energy and negativity that this area is holding while filling it instead with your lighter, happier energies creating much joy.

Please bless me and my family as light flows into every corner of every room, through every door and space. Above, below and all around to allow us to feel your love that encompasses all. Thank you for all your support and help today. ” Amen.

After burning either a dragon's blood or copal incense stick, place one of the four black tourmaline in each of the corners while placing a selenite and an amethyst anywhere in the room that you feel led.

Repeat incense burning as needed.
